We have a total of 5 Strategic Account Managers, one of which is dedicated strictly to federal sales. The 4 remaining account managers are responsible for state governmental sales in their respective geographies, dedicating 100% of their time to grow the John Deere governmental sales business. The account managers work with John Deere dealers to provide training and a greater understanding of the contracts and selling process.</p> <p>The John Deere dealers can also become an authorized seller on our contract and would be able to accept Purchase Orders and Invoice Sourcwell members. The dealers would have to successfully complete a contract training program administered by our account managers. The dealers would be responsible for delivering and supporting the equipment purchased.</p> <p>In relation to the new Sourcwell Grounds Maintenance contract, the account managers would promote the contract to state purchasing agents who either do not have their own purchasing contract or have product gaps in their contract.</p>
27	Describe the network of Authorized Sellers who will deliver Solutions, including dealers, distributors, resellers, and other distribution methods.	<p>John Deere has a nationwide independent dealer network offering best-in-class parts, service, and support. We know the government customer and make everything easy, from the initial purchase to service and support. Our dealer network, with over 1,700 locations nationwide, would be responsible for delivering and servicing the equipment sold to end users using this contract. John Deere dealers offer a combination of afterhours service (varies by dealer) and online support (online parts ordering system), which gives end-users the service needed to avoid costly downtime. The John Deere parts ordering system is available for all dealers and gives them access to over 800,000 unique parts which are ready to ship overnight, if needed. Most dealers also offer some form of mobile maintenance service, which provides on-site service. Dealer technicians are factory-trained on the service and support of the products offered in this RFP.</p>

Dealer technicians are factory-trained on the service and support of the products offered in this RFP.</p>
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	<p>We will have two processes in which Sourcwell members can order products.</p> <ol style="list-style-type: none"> 1. Dealer Direct - John Deere dealers who have completed training and certified by the Government Sales group would be an authorized seller on our contract. The dealer would be able to quote, accept purchase orders and invoice the Sourcwell member directly. The Government Sales group has a sales reporting process to capture the sale and report it to Sourcwell. 2. Deere Direct - Our dealer network has the ability to quote a Sourcwell member. John Deere would still be the vendor and the PO would still be made out to John Deere. The dealer would upload the quote and PO to the Government Sales Order Processing for audit. Once audited, we will send the dealer confirmation to deliver the equipment. John Deere will invoice the member upon delivery of the product. The Government Sales group has a sales reporting process to capture the sale and report it to Sourcwell.

30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	<p>The support of the equipment takes place through the John Deere dealer network. While customer service varies within the dealer network, the consistent training that is offered by John Deere Company to dealer technicians and parts personnel helps provide each agency with a similar customer experience. Should there be a need for equipment service, it will be the Sourcewell member's responsibility to contact the delivering dealer for service. The member can also work with other dealers, if necessary, as warranty and service work can be performed by any authorized John Deere dealer. In the event of service issues that cannot be solved by the John Deere dealer, the dealer works with John Deere Company's dealer technical assistance center for elevated support.</p> <p>As far as the John Deere Government Sales Department, we have an entire department of approximately 25 people dedicated to government sales. This includes an Order Management Team, that within an average of 15 days of submission, audits and processes the PO to verify contract pricing and verify the items quoted are eligible for the contract. Contract Administrators in the department ensure contract compliance is maintained.</p>
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities.	<p>John Deere will serve Sourcewell member entities in the United States. 36	Will Proposer extend terms of any awarded master agreement to nonprofit entities?	<p>John Deere will serve all Sourcewell member entity sectors.</p>

Table 4: Marketing Plan (100 Points)

Line Item	Question	Response *
37	Describe your marketing strategy for promoting this opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>John Deere currently uses several forms of marketing to target the governmental and public customer segment:</p> <ol style="list-style-type: none"> 1. We have created a website where we prominently advertise the cooperative contracts we currently hold. 2. Each year, the company produces a purchasing guide for government equipment. This purchasing guide, available in both print and electronic Flash Drive format, is used by the John Deere dealer network to promote the products. 3. John Deere also prints detailed marketing brochures for the products being offered in this RFP. This literature is made available to dealers and includes features and benefits and equipment specifications. <p>A sample of marketing materials have been uploaded for review and include: Government Municipal Lease Literature, Government Sales Folder Packet and Government Sport Turf Banner.</p>
38	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>John Deere's public website, www.deere.com, provides detailed product information for the products being offered in this RFP. Customers are able to view information on product features, specifications, and accessories. Utilizing www.deere.com, Sourcewell members would be able to "build-their own" product. Customers choose the product category and subsequent product options to configure their desired piece of equipment. Manufacturer's Suggested Retail List Price is shown. The website will not show the Sourcewell contract discount, but if the Sourcewell member knows the discount on the particular product category, they will be able to determine their purchase price.</p> <p>Through our Marketing Communications group, John Deere is also active promoting our brand and customer relationships on;</p> <ol style="list-style-type: none"> 1. Facebook - www.facebook.com/JohnDeereUSCA 2. Twitter - https://twitter.com/JohnDeere 3. YouTube - https://www.youtube.com/user/JohnDeere 4. Instagram - instagram.com/johndeere
39	In your view, what is Sourcewell's role in promoting agreements arising out of this RFP? How will you integrate a Sourcewell-awarded agreement into your sales process?	<p>Sourcewell, the John Deere Government Sales group and the dealer network will all play a critical role in promoting this new contract. Sourcewell's role will be to continue to promote the John Deere brand to Sourcewell members, so they understand cooperative purchasing and the benefits of becoming a member. John Deere Government sales role will be to promote the Sourcewell contract to the dealer network and properly train dealers on the sales process (quoting, ordering and delivery of products), ensure entities are Sourcewell members and assist nonmembers on how to become a member. The dealers' role will be to partner with the Sourcewell member to identify the correct product and solution based on the application and use of the equipment being purchased. Continued communication between all three areas is critical for success and sales growth with this new contract.</p>
40	Are your Solutions available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>We currently use e-procurement systems in North Carolina and Virginia (eVA) because we are contractually required to do so. The system does provide the state a constant record of sales activity, however, administratively, e-procurement is not a seamless process for us. When it comes to John Deere equipment, there are thousands of equipment configurations. Because Deere's price pages are in pdf format, we cannot just simply upload the pricing into the e-procurement systems. We have to manually construct base machines by model and enter them individually. Doing it this way means the agency is not getting the complete picture of what we have available. For the most part, agencies still feel most comfortable with working directly with the dealer to ensure they're getting equipment that will best suit their needs.</p>

Table 5A: Value-Added Attributes (100 Points)

Line Item	Question	Response *

The dealer will provide a walk-around of the equipment and explain operation and maintenance procedures. This training is free of charge and is part of the purchase. If the entity requires additional product, service or technical training, the dealer will provide at a cost agreed to between the dealer and the entity.</p>

43	Describe any "green" initiatives that relate to your company or to your Solutions, and include a list of the certifying agency for each.	<p>John Deere continually evaluates and identifies these initiatives and can be found in our most recently published Sustainability Report. https://www.deere.com/en/our-company/sustainability/ John Deere green initiatives include:</p> <p>By 2026</p> <ol style="list-style-type: none"> 1. Ensure 100% of new Small Ag equipment is connectivity enabled. 2. Offer an electric option in each Turf and Compact Utility Tractor product family. 3. Deliver a fully autonomous, battery-powered electric ag tractor to the market. <p>By 2030</p> <ol style="list-style-type: none"> 1. Achieve 95% recyclable product content. 2. Ensure 65% of product content is sustainable material.
44	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the Solutions included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>Sustainability is foundational to the John Deere strategy. We are committed to reducing the environmental impact on 90% of new products to include emissions reductions, and invest \$4 Million dollars per day in research and development. Third-party initiatives and recognition include:</p> <ol style="list-style-type: none"> 1. Best of CES Sustainability Award (GadgetMatch) 2. 50 Sustainability & Climate Leader (Bloomberg) 3. World's Most Ethical Companies (Ethisphere) 4. John Deere received notification that its emissions reduction targets have been validated by Science Based Targets initiatives (SBTi). 5. John Deere acquires majority ownership in Kreisel Electric. A leading pioneer in the development of immersion-cooled battery technology. <p>John Deere continually evaluates and identifies these initiatives and can be found in our most recently published Sustainability Report. https://www.deere.com/en/our-company/sustainability/</p>
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	<p>John Deere is the world's leading manufacturer of agricultural equipment. John Deere also has a strong presence in the construction and forestry industry. John Deere is a major force in the grounds maintenance and commercial landscape equipment industry. John Deere Financial is one of the largest equipment finance companies. John Deere also has the most advanced, well-trained national dealer network. All these attributes reinforce that John Deere is an organization that will provide quality products, and its dealer network will partner and support the Sourcewell participating entities for the long term.</p>

46	Describe the safety features your equipment offers such as emergency stop, operator presence control, roll over protection systems, guarding, noise reduction, stability controls, warning lights, etc.	John Deere places operator safety first when designing and introducing new safety features. All John Deere equipment - except for machines classified as 'Lawn Tractors' or 'Lawn and Garden tractors' - have a seatbelt and ROPS (external or built into the cab). John Deere riding lawn or garden tractors are all equipped with an auto-shutoff feature. When weight is taken off the seat, the mower or power take off (PTO) will immediately turn off. The tractor will not turn on again until weight is back in the seat. Guards or shields are in place to conceal the fast-moving power take off (PTO) shaft on implements to prevent any injury. John Deere implemented the engagement override valve in all 50 series and newer tractors in the early 1980s, which means the tractor will not move unless the clutch is cycled. The override valve prevents tractors that are left in gear from moving upon startup. Along with the engagement override valve, all John Deere equipment is equipped with a neutral start switch preventing equipment from starting while in gear. The colour-coded system present on all John Deere equipment from 1975 onward, indicates the related function of every switch, lever and other mechanisms. Red is associated with running the machine (key switch, shut off knob, throttle or speed control, and gear shift), black relates to the hydraulics, and yellow correlates with the PTO functions (PTO on/off, PTO speed, etc).
47	Describe any ergonomic features your equipment has such as anti-vibration, suspension and swivel seating, adjustable handles, ergonomic control layout for ease of reach, padded shoulder straps or harnesses, easy pull-start cords, etc.	John Deere has prioritized ergonomic features while designing our equipment. Levers that didn't need constant force to operate. To slow down or turn, all you need to do is gently squeeze the handles. With ergonomic controls and adjustable seating, operators of all sizes can comfortably handle long hours at the controls. The John Deere Compact Tractors are designed with ergonomic features, including a comfortable seat, controls that are easily within reach, and adjustable steering wheels. Noise reduction is also considered. John Deere tractors are designed to minimize noise and vibration levels, providing a quieter and more comfortable working environment for operators.
48	Describe features your equipment offers that positively impact the environment such as low-emission engines, battery powered and electric, eco-mode settings, biodegradable fuel use, water conservation technology, solar powered charging capability, smart technology, auto-shut off/no-idling systems, etc.	John Deere has created a Product Sustainability goal where we offer machines and technology solutions that are not only more productive and efficient but also minimize the impact on the environment. Some Product Sustainability Goals include: <ol style="list-style-type: none"> 1. Reduce environment impact, including CO2 emissions on 90% of new products. 2. The commercial mowers are designed to be used more per week and take more abuse. A John Deere can regularly last four to five times the factory warranty if maintained and used correctly. John Deere equipment includes one copy of the operator's manual upon delivery of the equipment. Other manuals are available for purchase upon request such as the technical and parts manuals. John Deere Warranty terms are limited to years or hours used, whichever comes first, and varies by model. Table 6: Pricing (400 Points)

Provide detailed pricing information in the questions that follow below.

Line Item	Question	Response *
59	Describe your payment terms and accepted payment methods.	John Deere's payment terms are Net 30.
60	Describe any leasing or financing options available for use by educational or governmental entities.	John Deere offers financing and leasing options through John Deere Financial. The John Deere Municipal Lease Purchase Plan is a special low rate financing plan that is designed to provide flexibility of leasing while building equity toward ownership of the John Deere equipment. Any state or local government body or their political subdivisions may be eligible for the John Deere Municipal Lease Purchase Plan, subject to approval and if the agencies rules and guidelines allow.
61	Describe any standard transaction documents that you propose to use in connection with an awarded agreement (order forms, terms and conditions, service level agreements, etc.). Upload all template agreements or transaction documents which may be proposed to Participating Entities.	John Deere dealers use a quoting system called JDQuote2 which allows them to access the Sourcwell contract held by John Deere and apply the correct discount for equipment on contract. John Deere dealers can also become an authorized seller on our contract and would be able to accept Purchase Orders and Invoice Sourcwell members. The dealers would agree to the contract's terms and conditions and sign a dealer agreement. Examples of a Quote and Dealer Agreement are attached.

62	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	No
63	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	John Deere is offering product-category discounts. See uploaded Price Schedule and Price Pages.pdf.
64	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	The percentage discount range is 4% to 24% off Current MSRP.
65	Describe any quantity or volume discounts or rebate programs that you offer.	John Deere offers a Multiple Unit Discount (MUD) based on the following schedule: 3-4 units – 1% 5-6 units – 2% 7-8 units – 3% 9 units or more – 4% For sales of three or more like self-propelled equipment sold to one customer on the same purchase order qualifies for an additional discount. Implements and attachments sold with and for self-propelled ride-on machines are also eligible for multi-unit discounts, but do not count towards the total number of ride-on units, which determines the multi-unit discount percentage. Frontier Equipment is excluded from the Multiple Unit Discount.
66	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "non-contracted items". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	John Deere will allow Sourced or Open Market items if requested by the Sourcewell member to complete the purchase of John Deere equipment awarded on the contract. Discounts will not be applied to these items. Non-contract and allied items would be sold as "open market" and the price of the item would be negotiated between the John Deere dealer and the Sourcewell Member. The non-contract/allied item would appear on the purchase order (PO) with the contract item but would be listed as 'non-contract'. We successfully use this process on other contracts.
67	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	For deliveries to Alaska, Hawaii, factory freight to the delivering dealer will be paid by the Sourcewell member. Factory freight is known at the time of quoting and will be included on the quote to the Sourcewell member. The dealer may charge \$8.00 per loaded mile to deliver equipment from the dealership to the agency's location. The charge must appear on the quote or purchase order.
68	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	For deliveries to Alaska, Hawaii, factory freight to the delivering dealer will be paid by the Sourcewell member. Factory freight is known at the time of quoting and will be included on the quote to the Sourcewell member. The dealer may charge \$8.00 per loaded mile to deliver equipment from the dealership to the agency's location. The charge must appear on the quote or purchase order.
69	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery. Factory freight is known at the time of quoting and will be included on the quote to the Sourcewell member.
70	Describe any unique distribution and/or delivery methods or options offered in your proposal.	None

71	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed agreement with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing.	Dealers who desire to become an authorized seller of the Sourcewell contract must complete a sales training class to ensure they understand and promote the contract per the Terms and Conditions. The dealers also sign a Dealer Agreement stating, they will abide by the contract Terms and Conditions. This process is conducted and facilitated by our Strategic Account Managers. Sourcewell members who purchase from John Deere will receive their equipment quote directly from the John Deere dealer. The dealer is able to create the quote by utilizing the contract information (discounts, contract guidelines, eligible equipment, etc.) that we have posted on our website as well as a quoting tool that we've made available to them. The member will submit their purchase order (PO) to the dealer. John Deere will be listed as the vendor on the PO and the dealer, who created the quote, will be the delivering dealer. The dealer will then upload the quote and the PO to Deere's online order management system. Our Order Management Team will then retrieve the quote and the PO and audit them based on the contract guidelines. If an issue is discovered with PO and/or quote, the Order Management Team will contact the dealer and work with the dealer and the member to get the issue resolved. The Sourcewell contract is assigned a Price Group or Bonus Code that is used capture each sale on a quarterly basis. A quarterly sales report is generated and audited by the Contract Administration group. After the audit and review is completed, the Contract Administration group submits the proper admin fee to Sourcewell.
72	If you are awarded an agreement, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the agreement.	Our Strategic Account Managers have sales goals and will monitor the use of the Sourcewell contract and the sales performance of the dealer groups in their assigned geographic region. Quarterly sales reports are reviewed to compare the Sourcewell contract sales growth quarter over quarter and year over year.
73	Provide a proposed Administration Fee payable to Sourcewell. The Fee is in consideration for the support and services provided by Sourcewell. The propose an Administrative Fee will be payable to Sourcewell on all completed transactions to Participating Entities utilizing this Agreement. The Administrative Fee will be calculated as a stated percentage, or flat fee as may be applicable, of all completed transactions utilizing this Master Agreement within the preceding Reporting Period defined in the agreement.	John Deere will pay Sourcewell a 1.0% admin fee on sales generated from this new contract. John Deere has been a strategic partner of Sourcewell for 14 years and we are honored to be awarded the Sourcewell Legacy Award in 2023. The Sourcewell contracts we hold are very popular and frequently used by our dealers. The utilization continues to grow and expand.
